TESTIMONIAL :

"Because we aim to bring value and efficiency to our customers in a competitive marketplace, we use Network International's expertise to manage the majority of our supply chain requirements, plus many of our Spare Parts shipments into the continent.

Network International have demonstrated diligence and progressiveness in terms of their operations and service levels to customers that other freight forwarders just can't offer. The professionalism, knowledge of customs, and attention to detail demonstrated on each shipment is exemplary.

We have a stronger supply chain to our customers as a result of partnering with Network International."

- Supply Chain Manager

One of the largest global manufacturer of specialised equipment based in Ireland and exporting to more than 85 countries worldwide.

Network International is committed to Sustainability as a company, a fleet operator and in choosing partners.

SERVICES

ROAD FREIGHT

Daily departures to and from UK & Europe providing time definite express delivery for both Groupage and Full Loads.

GLOBAL AIR

Our worldwide partner network operates across six continents to expedite mission critical shipments by air freight.

GLOBAL OCEAN

Less than Container Load (LCL) & Full Container Load (FCL) service options utilising the most time efficient routings and costs to long haul destinations.

CUSTOMS BROKERAGE

As an AEO (Authorised Economic Operator) our systems and business processes are designed to provide robust and compliant driven programmes for timely accurate customs declarations to the authorities.

VALUE ADDED DISTRIBUTION

We have been assisting companies within Ireland and further afield with specialist White Glove and Final Mile solutions.
